

**METEOR
SYSTEMS®**

MS-150

**Complete
protection for your
growing gutters!**

Now with
10 years
WARRANTY!

Where experience meets innovation!

MS-150

Since our founding, Meteor Systems has been the knowledge and innovation partner that has bridged the gap between the horticultural sector and the steel industry, with Tata Steel being one of our key partners. Meteor Systems has since pioneered and gained valuable knowledge and experience in growing crops on steel growing gutters in a controlled agricultural environment.

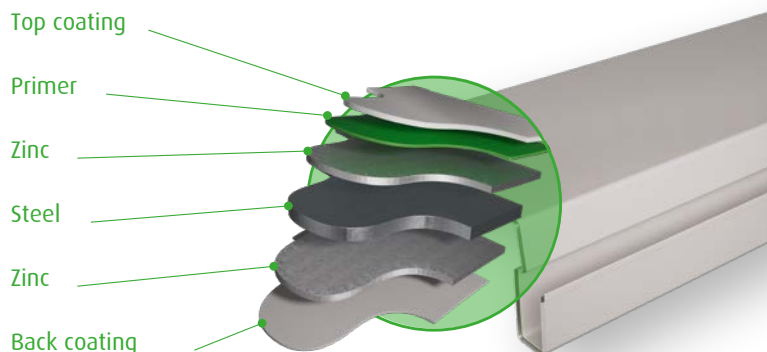

With the increasing pressure of diseases and the more intensive use of disinfectants and cleaning agents on growing gutters, Tata Steel faced the challenge of providing an even higher-quality base material for the horticultural sector. Tata Steel proudly presents Advantica Horti Control®. This new pre-coated laminated steel is now available across the entire range of growing gutters from Meteor Systems and can be purchased worldwide by all our customers.

The Advantages of MS-150

- **Resistant to cleaning agents, including hydrogen peroxide.**
- **Robust, corrosion-resistant, and extensively tested.**
- **High light reflectivity.**
- **100% recyclable.**
- **Certified: food-safe, chrome-free according to REACH, and free of plasticizers.**
- **Up to 10 years of worldwide warranty.**

Together with our supply chain partners, Meteor Systems strives to develop products that increasingly contribute to sustainable food production worldwide.

Resistant to corrosion

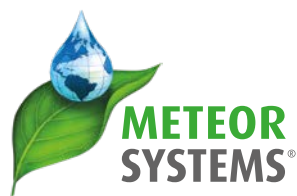

Sustainable

Extensive guarantee

Choose NOW for maximum protection for your growing gutter and a 10-year warranty with the new MS-150. Contact one of our cultivation specialists; we would be happy to discuss the possibilities for your business.
